- Monika is a great instructor for this discussion section, she explained everything clearly and encouraging students to work as a group or single, and willing to help students with questions.
- I like how she would go over problems that was asked
- Thank you for the help this quarter and for helping me understand the materials from the labs. Although I asked a lot of questions, thank you for answering them. I hope you have a good Spring Break.
- For her first year, she did a wonderful job!

- Initially, I didn't pay much attention to the discussions because I wasn't very used to using excel and she taught in a very fast-paced manner (In hindsight I should have asked her to slow down a bit at times). However, as the quarter progressed, the class got better and better and I was able to adjust to the face paced environment. Her notes on the labs were very clear, precise, and easy to understand, and were always willing to answer my questions regarding excel and the concepts learned in the lecture. I was surprised to find out this was the first discussion class she taught because she seemed like she had been teaching the discussion for years (or at least it felt that way). We took a picture at the last discussion with the whole class which was very wholesome.
- Very helpful teacher, whenever I had a question she was always ready to answer them and willing to help! I enjoyed the labs as we were guided properly when doing them by the instructor.

- The structure of discuss was great. The posting of some of the answers really helped. I really would not change that. Great overall.
- Was very helpful in answering questions for lab assignments and for giving feedback for homework assignments.
- Helpful, always responsive to questions, and kind
- Honestly couldn't understand her half the time. When answering questions I had on homework or just stats content, I leave being even more confused than before I asked.. 3/10
